About us

We support academic and commercial studies across a growing network of German university hospitals.

Our professional community is highly experienced in clinical research on infectious diseases, and our trained site staff is ready to start your study!

STANDARDIZATION AND EFFICIENCY

Daily automatic patient screening enables efficient recruitment into our base cohort, according to an umbrella master study protocol. We systematically recruit into 5 specific and 2 cross-sectional study modules.

**Respiratory
infections**

**Bloodstream
infections**

**Gastrointestinal
infections**

**Emerging
infections**

**CNS
infections**

Infections in immunocompromised patients

Infections in emergency and intensive care medicine

Your study will benefit from our standardized and efficient processes, from feasibility analysis through to study finalization.

WE ACCEPT STUDIES FROM ANY FIELD OF INFECTIOUS DISEASES!

With funding from the:
